

A black and white photograph of three women in traditional Indian wedding attire (lehengas and dupattas) standing in a field. The woman in the center is looking down at her hands, while the two women on either side are looking towards the camera. The background is a soft-focus landscape with a body of water and distant buildings. A thin, elegant line curves across the upper right portion of the image.

Wedding photography is an artistry that encapsulates the golden moments of love and joy of one of the most cherished days in a couple's life. It is a unique professional branch of photography that focuses on archiving entire wedding events, right from the preparation of auspicious ceremony to the grand reception.

The primary aim of wedding photographers is to compose an excellent and everlasting visual narration that portrays the story of the couple's special day. They skilfully capture the candid and posed shots ensuring that every expressions details and precious moments are preserved for perpetuity from agitated excitements to the brides getting prepared for the tears of joy during the vows and the exhilarating celebration at the reception. The photographer's lens is always prepared to catch the magical moments.

The wedding photographers are well equipped with technical know-how in dealing with lighting situations, composing shots and editing images to upgrade their aesthetic appeal. They work closely with the couples to understand their passion, choice, preference ensuring that their unique personalities and the manifestation of the relationship illuminates through every frame.

The photographs captured during a wedding are treasured memento that allows couples and their families to revive the joy and excitement of that special day for many many years to come. They serve as a palpable remembrance of the love and commitment shared, the bond formed and the inception of a new episode in the couple's lives.

Essentially, *Wedding photography* is a skillful blend of creativity.

# Story TELLING

## Why Choose Us:

To begin with, let us say that photography is not for looking, it is for feeling. Photography is all about eliciting feelings and emotions. That's why we do story based photography. The secret of story based photography lies in the abilities at encapsulating the entire story within a few frames and convey visuals together with emotions and feelings. They should have the capacity to touch the viewers on profound mental level.
